PROFILE

Frontend Developer with 1+ year of experience building responsive, enterprise-grade interfaces. Expert in React.js, MUI, and modern web architectures. Focused on complex state management and performance optimization in industrial applications (MES/PLM).

EXPERIENCE

Frontend Developer | Scutoid Technologies   Aug 2024 – Present

Project: SpaceLinx MES & PLM (Manufacturing Execution System)

- Developed a high-performance React 18 frontend for an industrial platform managing **Procurement, Inventory, Parts, BOM, and ECO**.
- Engineered a **Multi-Stage Approval System** with stage-aware permission logic controlling UI actions dynamically.
- Optimized the **Procurement and Inventory modules** for seamless tracking of purchase orders and stock lifecycle.
- Built data-heavy UIs using **MUI DataGrid** and Ant Design with custom real-time status rendering.
- Managed complex global state using **Redux Toolkit** and Context API.

Full Stack Developer (Intern) | Bharat Intern   Nov 2023 – Jan 2024

- Developed full-stack applications using React, Node.js, and MongoDB.
- Contributed to UI design and backend API development.
- Worked in Agile workflows using GitHub for collaboration.
